

Scrigno Sliding Pocket Door Cassette System - Single Door Kit - 125mm Finished Wall Thickness - Supplied With White Melamine Jamb Kit

Product Images

Short Description

- Time saving pre-assembled single sliding pocket from Scrigno

- Space saving.
- Simple and quick installation.
- Suits doors 35mm - 44mm thick.
- Max door weight 100kg.
- Endpost, crosspieces, cassette edge covers, door brushes and seals included with all Scrigno sliding pocket door systems.

Description

- The Scrigno (pronounced Scree-nio) sliding door gear system uses a pre-fabricated cassette system to create a single sliding pocket door.
- Unlike most other pocket door solutions available today, Scrigno systems come pre-fabricated. Just drop the supplied aluzinc cage into place, plaster over the opening and then you're ready to install the door of your choice on the hangers and sliding track provided.
- Allows an interior door to slide and disappear into a "pocket" within the wall cavity.
- Each set includes all the main components needed to install a long lasting, smooth running sliding door including a pre-made steel cassette pocket which is used to create the wall cavity or "pocket" for the door to slide into.
- This high quality sliding door gear is suitable for residential and commercial applications. The unique design allows doors between 35mm-45mm thick to be installed with a finished wall of 125 mm.
- Supplied as a kit to create the pocket, which can be fully fitted in under 60 minutes by a skilled installer.
- Suitable for doors up to 100kg in weight.
- Suitable for use with timber doors only - **door not included.**
- The Scrigno system comes supplied **complete with timber lining - jamb kits.**

Accessories Available To Suit The Scigno Single Pocket Door System

- Soft close mechanism - to dampen softly close the sliding door. - **(sold separately).**
- Self closing mechanism - automatically pulls the door closed each time the door had been opened. - **(sold separately).**
