- The sliding double pocket door kit suits doors 35mm - 44mm thick.

- Max door weight 80kg.
- Crosspieces, cassette edge covers, door brushes and seals included with all of our adjustable sliding pocket door systems.

## Description

---

- Our double adjustable sliding pocket door kits have been designed to provide an unrivalled size and design flexibility with modular kits that are available in two heights and three widths as standard.
- Our adjustable standard double pocket door kits include top fixed door brackets and poplar door linings as well as all the structural components for creating your double pocket.
- The cassette is constructed from exceptionally rigid Z profiles that interlock together to create a unit that is height adjustable. The benefit in this is that unlike other systems that only accept one exact leaf size these kits can accommodate on-site variations or changes without having to send it back and order a different kit (or having to try to modify it on site)
- The Z section is exceptionally easy to affix the plasterboard to. Included within the box are the right self drilling screws to get a good fix and ensure the screws don't penetrate too deeply and risk scratching the door face. There is also enough surface area should you wish to bond your plasterboard onto the frame.
- Quality components include Delrin covered ball bearing rollers. White powder coated anodised aluminium track. Pre punched floor channel. Pre formed door Poplar door linings. Soft brush seals. Pre cut plasterboard profiles for frameless wall openings. All of these are specifically designed and manufactured to make installation easy and gives years of trouble free performance
- Unlike most other pocket door solutions available today, these systems are adjustable in both height and width making them ideal for use with non standard door sizes including extra wide and tall doors.
- Allows an interior door to slide and disappear into "pockets" within the wall cavity.
- Each set includes all the main components needed to install a long lasting, smooth running double sliding doors including an adjustable steel cassette pocket which is used to create the wall cavity's or "pockets" for the doors to slide into.
- This high quality sliding door gear is suitable for residential and commercial applications. The unique design allows doors between 35mm-45mm thick to be installed with a finished wall of 125mm.
- Supplied as a kit to create the pocket, which can be fully fitted in under 60 minutes by a skilled installer.
- Double pocket door kit is suitable for doors up to 80kg in weight.
- Our double pocket door kit is suitable for use with timber doors only - **doors not included.**

Item Code	Door Width Style	Door Height Style	Door Width (WP)	Max Door Height (HP)	Finished Wall Thickness
40932.1	Standard	Standard	626mm - 926mm	2100mm	125mm
40932.2	Intermediate	Standard	926mm - 1300mm	2100mm	125mm
40932.3	Wide	Standard	1300mm - 1500mm	2100mm	125mm
40932.4	Standard	Tall Door	626mm - 926mm	2700mm	125mm
40932.5	Intermediate	Tall Door	926mm - 1300mm	2700mm	125mm
40932.6	Wide	Tall Door	1300mm - 1500mm	2700mm	125mm

- Please note plasterboard is not provided with this kit and must be purchased separately.

**To calculate studwork width and height from known door dimensions:**

- Studwork width ( $W$ ) =  $4 \times \text{Door width } (Wp) + 64\text{mm}$
- Studwork height ( $H$ ) =  $\text{Door height } (Hp) + 85\text{mm}$

**To calculate door size from known studwork dimensions:**

- Door width ( $Wp$ ) =  $\text{Studwork width } (W) - 64\text{mm Divided By } 4$
- Door height ( $Hp$ ) =  $\text{Studwork height } (H) - 85\text{mm}$

**To calculate door size from known door opening dimensions:**

- Door width ( $Wp$ ) =  $\text{Door opening width } (Op) + 34\text{mm Divided By } 2$
- Door height ( $Hp$ ) =  $\text{Door opening height } (Oh) + 4\text{mm}$

**To calculate door opening width and height from known door dimensions:**

- Door opening width ( $Op$ ) =  $2 \times \text{Door width } (Wp) - 34\text{mm}$

- Door opening height (Oh) = Door height (Hp) - 4mm

## Items Included Within The Adjustable Pocket Sliding Door Kit

- Adjustable metal cassette to create two "pockets"
- Screws to fix plasterboard to metal frame - **(Plasterboard not supplied)**
