

## Satin Chrome ERA Lock - High Security Night Latch - BS3621 Rated

### Product Images

### Description

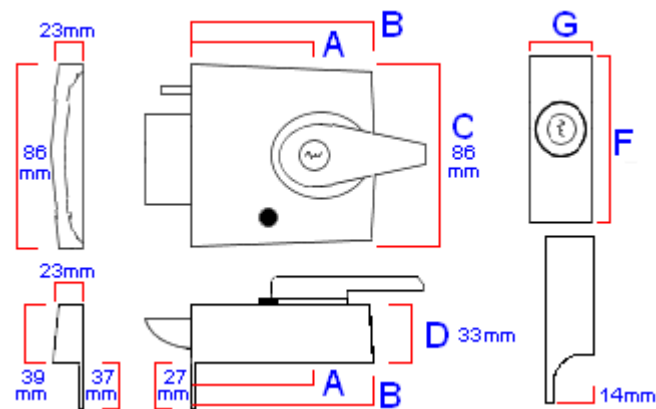

## ERA Lock - British Standard High Security Night Latch

- Conforms to British Standard [BS 3621:2004](#) and meets tough criteria laid down by the insurance companies and the Police ([Secured By Design](#))
- This latch and lock features an integral cylinder pull which protects the cylinder from being drilled
- The cylinder has over 30,000 key variations and comes with a 20mm bolt throw for greater security and strength

# Technical Specification

- Finish - Satin Chrome
- Also available in [Matt Black](#), [Polished Brass](#), [Polished Chrome](#) and [Satin Nickel](#)
- Fit - to suit maximum door thickness of 54mm

Cylinder Height	83mm	83mm	F
Cylinder Width	50mm	50mm	G

## More Information

- This latch lock is for use on inward opening doors only
- The night latch can be dead-locked (double-locked). This is done from the INSIDE by a full turn of the key
- Double locks from inside, so if someone was to break the glass in a front door or a nearby window, they can't unlock the night latch without the use of the key
- Latch bolt is withdrawn by handle from inside and by turning the key from the outside
- Bolt can be held back by pushing the button on lock case, then released by turning the handle up or down
- The main lock bolt automatically deadlocks. When the door is closed this makes the use of a credit card to force entry virtually impossible
- Comes with three keys
