Short Description

- A cast sash lift is a metal handle fitted at the bottom of a sash window. It allows users to easily lift and open the window by hand.
- These are 1883 Traditional English made Sash Lifts.
- Our Cast Sash Lifts have dimensions of 51mm.
- Shop the full range of [Sash Window Hardware](#). To coordinate with this Sash lift, we also supply matching sash handles, pulleys and locks.
- This range is made-to-order. In the UK, please allow 6 weeks for delivery. [Please contact us](#) for prices and further information.
- Available in 27 luxury finishes from aged brass and dark bronze to distressed nickel and polished chrome (please see below list for the full the selection).
