

Roller Arm Stay - Antique Brass (Gloss Lacquered)

Product Images

Description

- Pivoting roller stay for bottom hinged, inward opening fanlight windows
- Architectural quality
- Roller stay "rolls" up and down the window as it opens and closes
- When the fanlight window is in the closed position the roller stay lies flat against the window - SEE BELOW DIAGRAM
-  When the fanlight window is in the open position the roller projects from the frame to restrict and support the fanlight window - SEE BELOW DIAGRAM

Finish

- Light Antique Brass

Dimensions

Available in two sizes - 150mm or 254mm (Length A on above diagram)

Important Info Before You Buy

- Normally two roller stays are required per window - SOLD INDIVIDUALLY - (per one)
