

Rea - Barn Door Style Sliding Door Gear With Face Fix Straps - For Door Widths Up To 900mm Wide - Track Length 2000mm - Matt Black

Product Images

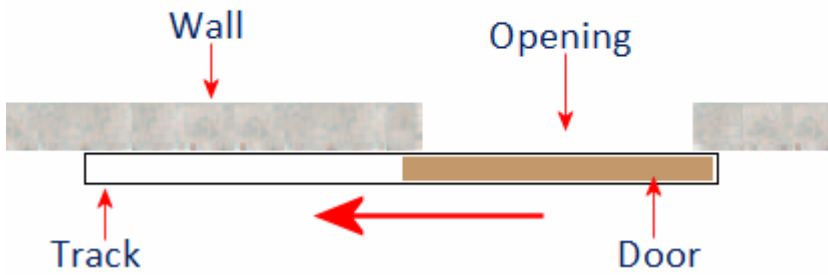

Description

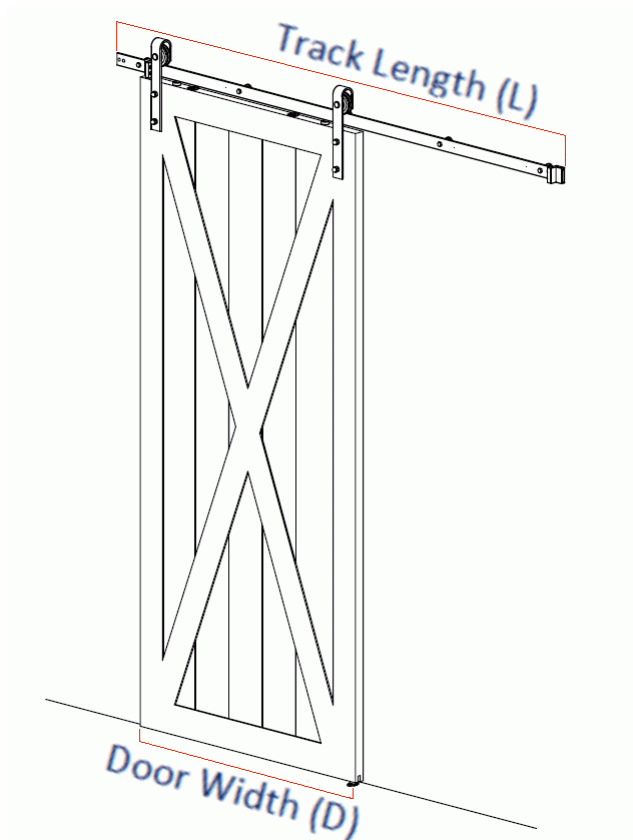

- The Rea sliding door system is a barn style sliding door track with face fix door straps in a matt black finish.
- Steel track with matt black ball bearing rollers.
- Designed for use with timber doors between 35mm - 45mm thick and up to 100kg in weight.
- Ideal for sliding doors between rooms, wall openings or for entrances to offices.
- Face fix strap design with ball bearing hangers that run along a matt black, rectangular shape top rail.
- A concealed floor mounted guide is centrally located to eliminate any swinging effect and allow a uniform movement during sliding.
- Each set includes all the main components needed to install a long lasting, smooth running wooden sliding door.

Single Sliding Doors

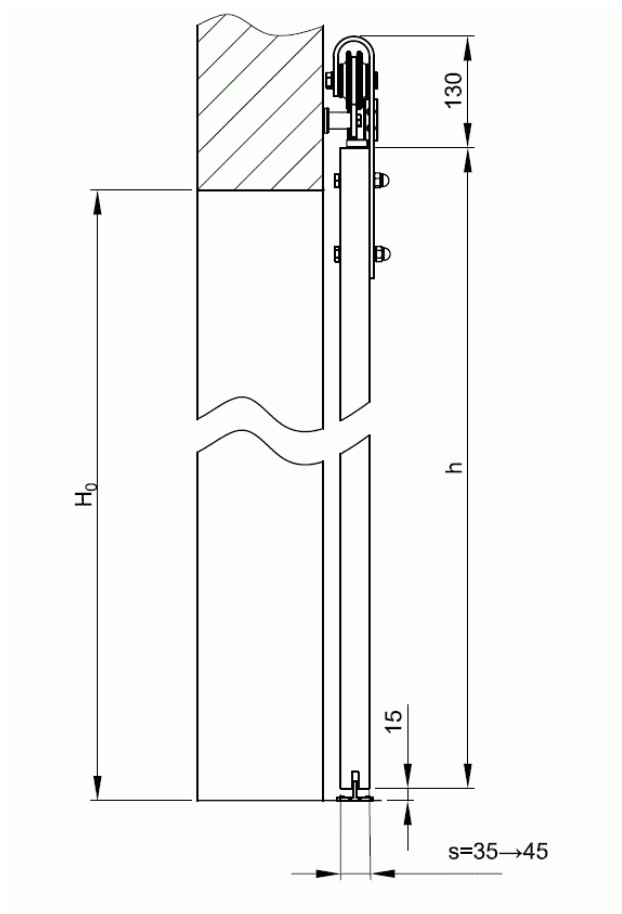

Single Sliding Door

Dimensions And Track Lengths Available

Item Code	Maximum Door Opening Width (D)	Overall Track Length (L)	Max Door Weight (W)	Door Thickness (T)
43015.1	900mm	2000mm	100kg	35mm - 45mm

- Door height (h) is calculated as follows H_0 (Opening Height) + 73mm

Optional Extras
