
Motion Sensor Unit For Automatic Electronic Sliding Door Track Systems

Product Images

Description

- Motion control sensor to suit our range of automatic sliding door track systems.
- Radar unit detects when a user is approaching the door and sends a signal to the control unit to automatically open the door.
- Can be fitted on either side of the door opening (if sensors are required on both sides 2x sensors need to be purchased).
- Measurements: 173mm (L) x 49mm (W) x 60mm (H)
- Available in black, white or silver anodised aluminium.

Products in this set

43525.1 - Radar Motion Sensor For Automated Electronic Sliding Door Track Systems - Black

43525.2 - Radar Motion Sensor For Automated Electronic Sliding Door Track Systems - White

43525.3 - Radar Motion Sensor For Automated Electronic Sliding Door Track Systems - Silver Anodised Aluminium
