**Auto Locking Multipoint Set For External Doors - Left Hand - 92mm Euro Centres - Door Height  
2050mm - To Suit 44mm - 54mm Thick Doors**

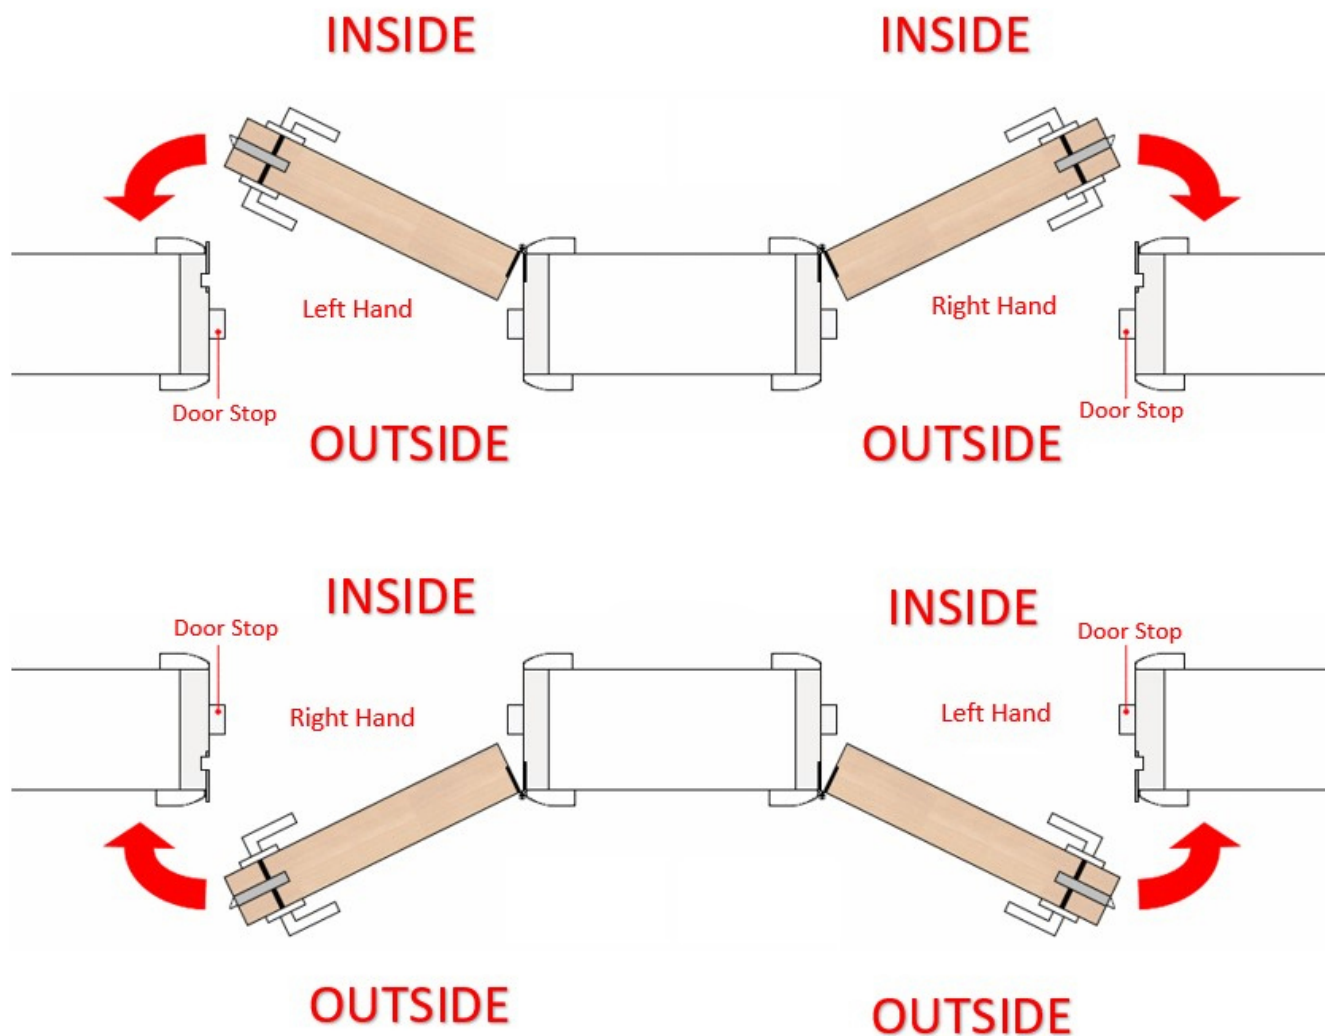

## Description

---

- Multipoint door lock for external timber / wooden doors.
- 3 point locking - 2 x hooks, 1 x dead bolt, and 1 x latch,
- Unit automatically locks when the door is closed, unlocks with key, inside handle or electrical input if optional motor is fitted.
- Must be used in conjunction with 1 x pair of multi-point door handles and 1 x Euro profile cylinder - **SOLD SEPARATELY**.
- Options available to suit 44mm and 54mm thick doors.

## Operation

- The hook bolts on the multipoint lock are engaged automatically when the door is closed and withdrawn via a lever handle or the euro cylinder from the inside of the door.
- The deadbolt on the master lock is locked and un-locked via a Euro profile cylinder (**sold separately**).
- These multipoint locks are handed please see diagram the below diagram for instructions on how to determine the handing required for your door.

## Features

- Suitable for use on left or right handed doors.
- Suitable for inward or outward opening doors.
- Medium weight springing, designed for use with spring assisted (sprung) door handles.
- Bolt through facility for standard multipoint door handles.
- 8mm x 8mm spindle follower (to suit standard UK size spindles).

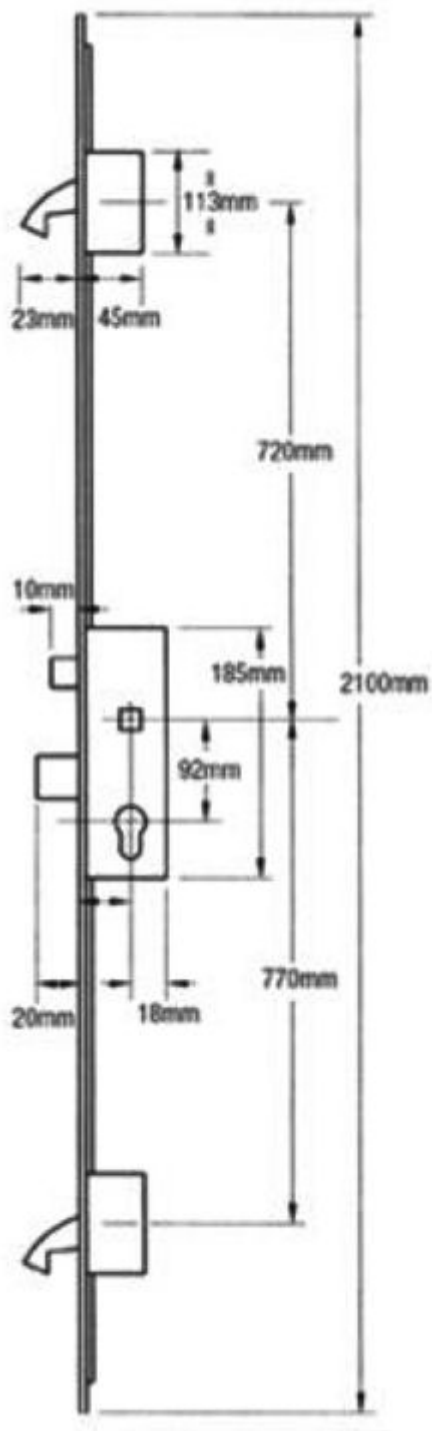

## Security Level

- Medium security architectural range.
- Suitable for use on external doors in residential properties

## Finish

- Stainless steel forend.
