
Accessible Bathroom Turn & Release With Red / White Indicator - Matt Bronze (Lacquered)

Product Images

Description

- Disabled bathroom snib turn and emergency release set with red and white indicator
- This turn and release has an extended, larger snib which looks like a little lever, this makes it easier to twist to lock and unlock the bathroom
- ideal for use in disabled toilets or for the elderly or infirm
- A turn and release consists of two parts

1 - a snib turn which is fitted on the inside of the bathroom and is used to lock the bathroom or toilet by twisting the snib a quarter turn to the left or right

2 - a release which is fitted on the outside of the bathroom. If some gets locked in the bathroom or toilet the snib can be released in an emergency by twisting a coin or screwdriver in the slotted part of the rose a quarter turn

- This turn and release set uses a 5mm x 5mm spindle (the metal shaft that goes through the door) this suits standard UK bath locks
- A turn and release is only the cosmetic part that you see on the outside of the door and requires a mechanism to work in conjunction with it, such as a bathroom lock or deadbolt

Finish

- Matt bronze

Dimensions

- Rose Diameter - 52mm
- Rose Depth - 10mm

Important Info Before You Buy

- Can also be used as a privacy lock for bedrooms
- The release part which is fitted on the outside of the door has a red and green indicator
- When the door is unlocked the white colour is shown to indicate the door is unlocked and empty
- When the snib is locked the red colour is shown to indicate the door is locked and engaged
- PLEASE NOTE - THIS ITEM MUST BE USED IN CONJUNCTION WITH A BATHROOM MORTICE LOCK OR A DEADBOLT
