

Scrigno Soft Close Damper Mechanism For Use With FD30 Fire Rated Kit - Minimum Door Width 700mm - For Doors Up To 35kg In Weight

Product Images

Description

- Soft close mechanism to suit the Scrigno FD30 sliding pocket door systems.
- The damper or "soft-close" unit catches the door in the last few centimetres and gently pulls it into the fully closed position thus avoiding slamming which alleviates stress on the surrounding door frame and helps prevent finger traps.
- Easy to install - Can be installed retrospectively (Please note: when retro-fitting accessories, the architrave cross piece may need to be removed).
- Suitable for doors up to 35kg in weight.
- **MINIMUM DOOR WIDTH 700mm - THIS ITEM CANNOT BE USED WITH THE 48706.1 DOOR KIT.**
- **Suitable for use with the Scrigno sliding pocket door systems only.**
