

Soft Close Damper To Suit Scrigno Adjustable Pocket Door Kit - Max Door Weight 35kg

Product Images

Description

- Soft close mechanism to suit the Scrigno **adjustable pocket door kit**.
- The damper or "soft-close" unit catches the door in the last few centimetres and gently pulls it into the fully closed position thus avoiding slamming which alleviates stress on the surrounding door frame and helps prevent finger traps.
- Easy to install - Can be installed retrospectively (Please note: when retro-fitting accessories, the architrave cross piece may need to be removed).
- Suitable for doors up to 35kg in weight.
- **Suitable for use with the Scrigno adjustable sliding pocket door kit only.**
