### Description

---

- PVD brass heavy duty double sprung tubular latches.
- CE Marked / UKCA Marked.
- Fire tested to BS EN 1634-1 suitable for use on 30 minute and 60 minute FD30 and FD 60 fire doors.
- Tested to BS EN 12209-2003 the standard for mechanical locks and latches.
- Architectural finish - PVD brass finish forend and strike plates ideal for use with polished brass and PVD brass finish door handles.
- Supplied with black back box for fitting behind the strike plate in the door frame.

- Heavy duty latch ideal for use with door handles fitted in residential, commercial and public buildings.
- Available four sizes, 64mm, 76mm, 102mm or 127mm, case depths.
- Bolt through fixing holes at 38mm apart (except for the 64mm case depth) - allows this latch to work in conjunction with bolt through round rose door handles.
- Can be used with a rebate kit for double rebated doors.
- This latch has a heavy weight spring making it ideal for use with sprung or un-sprung door handles.

## Operation

- Latch is withdrawn via a door handle from either side of the door (handles sold separately).

## Features

- Double sprung - heavy weight springing with lightly sprung latch bolt (allows the door to latch into place with little friction).
- Solid brass guided latch.
- Bolt through facility for bolt together fixing lever handles and accessories at 38mm centres - **(please not the 64mm latch does not have bolt through holes)**.
- 8mm x 8mm spindle follower (to suit standard UK size spindles).
- Latch can be reversed on site by twisting the latch through 180 degrees.
- Reversible frame mounted strike plate.
- Supplied with black back box for fitting behind the strike plate in the door frame.
- Suitable for use on internal doors in residential, commercial or public buildings.

## Finish

- PVD brass

## Alternative Finishes Available

- Antique brass.
- Satin stainless steel.
- Polished stainless steel.
- Satin brass
- Black
- Matt bronze
