## Modern Tubular Design Locking Window Fastener - Satin Stainless Steel

### Product Images

---

### Description

---

- Stainless steel modern designer locking window fastener
- High architectural quality
- Contemporary tubular design handle (13mm diameter)
- A casement fastener is fixed on the side of the window and is the handle used to keep the window closed
- Key lockable via an alun key and grub screw

- Fastener can be locked by screwing the grub screw into the fastener with the alun key provided. This stops the fastener from moving hence stopping the window from being opened
- This fastener is handed left (shown in image) or right
- A left hand fastener is used on windows that are hinged on the left
- A right hand fastener is used on windows that are hinged on the right

#### Finish

- Satin stainless steel
