## Modern Tubular Design Casement Window Stay - 254mm - Satin Stainless Steel

### Product Images

---

### Description

---

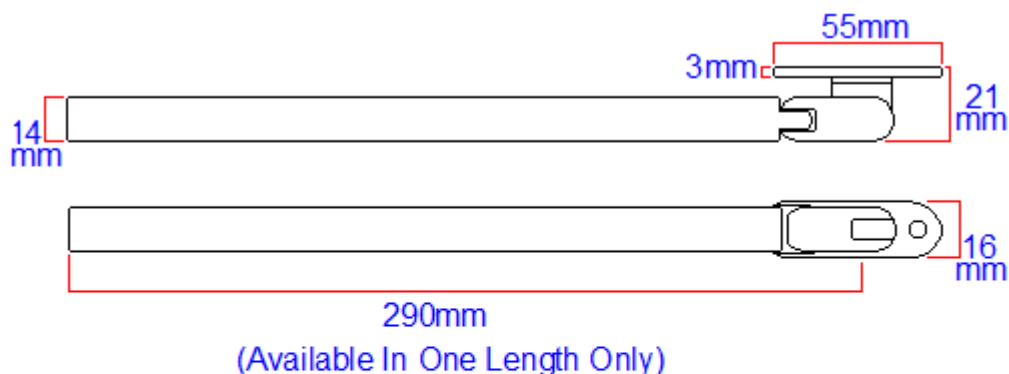

- Stainless steel modern designer window stay - 20144.1
- High architectural quality
- Contemporary tubular design handle (13mm diameter)
- A casement stay is the handle or "arm" that fixes to the bottom of the window to help push the window open and pull the window closed
- The casement arm sits on pins this makes the window "stay" in position when in the open or closed position

- Pins are concealed under the stay giving a modern sleek look

**Finish**

- Satin stainless steel

**Dimensions**

Available in one length only - (size A on above diagram).

- 254mm - (10 inches) - 20144.1

**Important Info Before You Buy**

- Suitable for wooden windows
- Suits standard outward opening casement windows
- The modern design of this window stay means the pins are concealed, hence replacement locking pins can NOT be used
- Comes supplied with fixing screws and two standard pins
- Matching locking window fastener also available
