<b>Width (W)</b>	50mm	B
<b>Leaf Width</b>	20mm	C
<b>Thickness</b>	2mm	N/A

#### Important Info Before You Buy

- Suitable for wooden doors
- Base material is brass. Hinges have 4 ball bearings in the knuckle. This gives the hinge excellent strength and a smooth action
- We recommend the this hinge for medium weight internal doors
- For glazed or heavy internal doors we recommend the 102mm x 76mm 4 Ball Bearing hinges
- For heavy front doors or external doors we recommend the Grade 13 Ball Bearing hinges
- For any doors that have to pass fire regulations the Grade 13 Ball Bearing hinges have to be used
- These hinges have a high quality lacquer coating and are suitable for internal or external use. (Please note the lacquer will break down after time and the brass will tarnish. This will happen a lot quicker on external doors compared to internal doors)
- Hinges are sold and priced in pairs and come supplied with screws
