Product Images

Short Description

- Scrigno adjustable double pocket door kit for large and oversized doors.
- Designed to hang 2 x doors up to 1026mm wide (each) and up to 2700mm high.
- Suits doors 35mm - 44mm thick.
- Max door weight 120kg.
- Supplied with white melamine jamb kit.

Description

- The Scrigno (pronounced Scree-nio) adjustable pocket door kit is stud work based kit which can be adjusted on site to suit large double doors up to 1026mm wide and up to 2700mm high.
- Allows an interior door to slide and disappear into a "pocket" within the wall cavity.
- Each set includes all the main components needed to install a long lasting, smooth running double sliding doors including stud work pocket which is used to create the wall cavity or "pocket" for the door to slide into.

- This high quality sliding door gear is suitable for residential and light commercial applications. The unique design allows doors between 35mm-45mm thick to be installed with a finished wall thickness of 125mm.
- Supplied as a stud work kit to create the pocket, which can be fully fitted in under 60 minutes by a skilled installer.
- Suitable for doors up to 120kg in weight.
- Suitable for use with timber doors only - **door not included**.
- The Scrigno kit is supplied **complete with a white melamine timber lining jamb kit**.

Accessories Available To Suit The Scrigno Adjustable Single Pocket Door Kit

- Soft close damper - to softly close the sliding door. - **(sold separately product 48730)**.
