- Designed for heavier weight applications than regular flush hinges
- Flush fit no need to mortice in to door or carcass

Finish

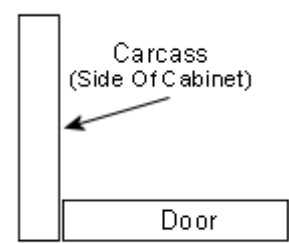

- Electro plated brass

Dimensions

	• 20281.1 - (50mm x 66mm)	
	20281.1	Dimension On Diagram
Height (H)	50mm	A
Overall Width (W)	66mm	B
Leaf Width C	16mm	C
Leaf Width D		D
Crank		E
Thickness	1.2mm	N/A

Important Info Before You Buy

- Suitable for wooden doors
- Only suitable for doors that inset the cabinet carcass - (see below diagram)

- Normally for 15mm - 19mm door thickness
- The cranked flush hinge is a heavier duty version of the regular flush hinge
- Base material is steel with an electro brass plated finish
- Flush hinges are "easy fit" non mortice - No chiselling required just screw straight on to door and carcass
- Leaf "D" folds into leaf "C" to allow the hinge to close together "flush"
- Sold individually - (price per hinge).
