

ERA High Security Night Latch & Euro Profile Cylinder Deadlock With Internal Thumb Turn - Keyed Alike Set - Polished Brass Plated

Product Images

Short Description

- **Keyed Alike (KA)**
- A keyed alike Euro cylinder is a type of lock cylinder that can be opened by the same key.
- It is designed for use in situations where multiple locks are needed, but it is inconvenient to carry different keys for each lock.
- Keyed alike means that all the locks in a set have the same key combination, allowing one key to open all the locks in the set.
- The keyed alike Euro cylinder is a popular option for homes and businesses where several doors need to be secured with the same key for ease of use and convenience.
- They can be used for exterior or interior doors, and they come in different sizes to fit various types of doors.

Description

TO SUIT MAXIMUM DOOR THICKNESS OF 44MM

- British Standard High Security Nightlatch
- Conforms to British Standard BS 3621:2004 and meets the tough criteria laid down by the insurance companies and the Police (Secure By Design)
- Features an integral cylinder pull which protects the cylinder from being drilled
- The cylinder has over 30,000 key variations and comes with a 20mm bolt throw for greater security and strength.

Deadlock

- Euro profile British Standard rated cylinder deadlock with internal thumb-turn operation.
- Kite marked security lock for front doors. Tested to the British standard BS 8621.
- Keyless egress (door can be locked and unlocked from the inside without the use of a key).
- Insurance approved, BS 8621 rated.
- Key operation from the outside and thumb-turn operation from inside of the door via Euro profile key / turn cylinder.
- Complete set comes supplied with 1x mortice lock, 1x 70mm euro profile 6 pin cylinder and 2x security escutcheons.
- Police preferred specification - Secured By Design (SBD) approved with anti-pick and ant-drill pins.

Operation

- Key / Turn double cylinder - key operation from outside side (secure side) and thumb turn operation from the inside of the door (non secure side).
- The door can be locked and un-locked by turning the thumb turn knob from the inside of the door or via key on the outside of the door.
- Comes supplied with 3 keys and a cylinder fixing screw.
- Key differed - if ordering more than one, the cylinders will come with different keys.
- Suitable for use on timber doors.

Features

- Heavy duty lock case and stainless steel receiver plate for the door frame.
- Solid stainless steel deadbolt and latch.
- 20mm bolt throw with a single turn of a key.
- 10 year mechanical guarantee as standard.
- Supplied with security escutcheons.

Security Level

- 6 pin BS rated cylinder tested to BS EN 1303.
- Stainless steel deadbolt with 20mm throw.
- Police preferred specification - Secured By Design (SBD) approved.
- Special anti-pick pins inside cylinder.
- Anti-drill with stainless steel hardened inserts in cylinder housing and plug.
- Anti-drill, anti-hammer and anti-snap security escutcheons.
- High security, suitable for use on external front doors.
- **Note** If fitting a thumb turn cylinder to a front or back door be aware that if a burglar were to break any glass in the door they could in theory reach down to thumb turn and unlock the mortice lock.

Finish

- Polished Brass plated

Standards This Product Conforms To

- Police preferred specification - Secured By Design (SBD) approved.
- Kite marked - This lock set meets the current British standard for locks fitted to external doors, including front doors to flats.
- Insurance approved lock.
- Tested and passed to BS 8621:2007.** The British standard requirements and test methods covering thief resistant lock assemblies with keyless egress (keyless egress - operating the lock with out a key from the inside of the door. In this instance via a thumb-turn). ****To meet this British standard the lock must be fitted with the supplied 6 pin cylinder and supplied security escutcheons.**
- Lock case tested and passed to BS EN 12209. The British / European standard requirements and test methods covering locks and latches. Classification number - **2H810F7BA00**.
- 6 pin cylinder tested and passed to BS EN 1303. The British / European standard requirements and test methods covering cylinders for locks. Classification number - **16010C62**.
- CE Marked / UKCA Marked.
- Declaration of performance (DoP) - ***please see the additional information tab to download the certificate.***

Options Available To Order

- **Keyed To Differ** - Keyed to differ means **each lock has its own key**
- **Under Master Key (UMK)** - A batch of cylinders all under different keys with one master key which operates any of the cylinders.
- Please contact us for more information and lead times and prices for the above options.

Important Info Before You Buy

- For use on inward opening doors only
- Night latch can be dead-locked (double locked) This is done from the INSIDE by a full turn of the key
- Double locks from inside, so if some one were to break the glass in a front door or a near by window they can't unlock the night latch with out the use of the key
- Latch bolt is withdrawn by handle from inside and by turn of key from outside.
- Bolt can be held back by pushing the button on lock case, then released by turning the handle up or down
- The main lock bolt "automatically" deadlocks, when the door is closed this makes the use of a credit card to force entry virtually impossible
- Comes with three keys
