

High Security Dual Front Door Lock Kit - Auto Locking BS8621 Mortice Nightlatch & BS3621 Mortice Dead Lock - Antique Brass (Lacquered)

Product Images

Short Description

- **Keyed Alike (KA)**
- A keyed alike Euro cylinder is a type of lock cylinder that can be opened by the same key.
- It is designed for use in situations where multiple locks are needed, but it is inconvenient to carry different keys for each lock.
- Keyed alike means that all the locks in a set have the same key combination, allowing one key to open all the locks in the set.
- The keyed alike Euro cylinder is a popular option for homes and businesses where several doors need to be secured with the same key for ease of use and convenience.
- They can be used for exterior or interior doors, and they come in different sizes to fit various types of doors.

Standards This Product Conforms To

Insurance Compliant

- Manual deadbolt is BS3621 certified and kitemarked
- Automatic deadbolt is BS8621 certified.

Tested to British Standards

- Expertly crafted & tested 200,000 times for durability and to resist burglar attack

Registered Keys

- Secure key registration so keys can never be copied without your permission

Important Info Before You Buy

- For use on inward and outward opening doors.
- Latch bolt is withdrawn by thumbturn from inside and by key from the outside.
- The main lock bolt "automatically" deadlocks, when the door is closed this makes the use of a credit card to force entry virtually impossible.

- Supplied with three keys.
- Maximum door thickness 54mm (for thicker doors please contact us).
