

## Turn & Release - Miniature Square Rose - Satin Stainless Steel

### Product Images

### Description

- Bathroom snib turn and coin emergency release set
- A turn and release consists of two parts
  - 1 - a snib turn which is fitted on the inside of the bathroom and is used to lock the bathroom or toilet by twisting the snib a quarter turn to the left or right
  - 2 - a release which is fitted on the outside of the bathroom. If someone gets locked in the bathroom or toilet the snib can be released in an emergency by twisting a coin or screwdriver in the slotted part of the rose a quarter turn
- This turn and release set uses a 5mm x 5mm spindle (the metal shaft that goes through the door) this suits standard UK bath locks
- A turn and release is only the cosmetic part that you see on the outside of the door and requires a mechanism to work in conjunction with it, such as a bathroom lock or deadbolt
- Miniature Square Rose - this allows for use on doors with narrow roses and crittall style doors
