Width	102mm	B
Leaf Width	43mm	C
Projection given	50mm	D
Thickness	3mm	N/A

Important Info Before You Buy

- Broad butt projection hinges are used to help project or "throw" a door past an obstruction so it can fold back on it's self 180degrees

- Suitable for wooden doors
- Base material is brass
- Hinges have 4 ball bearings in the knuckle. This gives the hinge excellent strength / wear-ability on the door and a smooth action
- These hinges have a high quality lacquer coating and are suitable for internal or external use. (Please note the lacquer will break down after time and the brass will tarnish. This will happen a lot quicker on external doors compared to internal doors)
- Hinges are sold and priced in pairs and come supplied with screws
