### Description

---

- Eurospec 5 pin - Euro profile double cylinders - Key / Key operation with a shiny polished chrome plated finish.
- Euro cylinders are the "barrels" that go through the middle of a door, commonly found on UPVC front doors.
- Low security range with a high quality architectural finish.

- Ideal for use on internal doors.
- Supplied with 3 keys.

## Operation

- Double cylinder - key operation from both sides.
- Comes supplied with 3 keys and a cylinder fixing screw.
- Key differed - if ordering more than one, the cylinders will come with different keys.
- Suitable for use on wooden, UPVC and metal doors.
- Must be used in conjunction with some form of Euro profile mortice lock or multi-point locking system. (Sold separately)

## Security Level

- Basic security with 5 pins.
- Best used on internal doors where low security is acceptable.
- Can be fitted externally where security isn't a high priority.

## Finish

- Polished chrome - (shiny mirror like finish.)

## Alternative Finishes Available

- Satin chrome
- Polished brass

## Dimensions

- Equal cylinders (each side of the cam is the same size.)

All measurements in mm

Item Code	Overall Length (A)	External Side (B)	Internal Side (C)
30676.4	70mm	35mm	35mm

- To work out the length of cylinder you require you need to add together
  - - The thickness of the door. (D) on the below diagram.
  - - Plus the thickness of the escutcheon / backplate on each side of the door. (E) on the diagram below.

**Overall Cylinder Length = D + (Ex2)**  
 (Ex 2 as usually this is one escutcheon on each side of the door)

**Always check the mortice lock is fitted in the middle of the door  
 if not an offset cylinder is required**

- For security reasons it's best where possible to have the Euro cylinder finish flush (flat) with the edge of the escutcheon or backplates of the handles fitted to the door.
- Cylinders that stick out past escutcheons and backplates of handles are much more vulnerable to attack as they can more easily be hammered, twisted or cut during an attack.

## Standards This Product Conforms To

- The Eurospec 5 pin Euro profile cylinders have been included on a successful fire test to BS EN1634: Part 1 2000 - Assessed for use on 30 minute and 1 hour fire doors FD30 / FD60.

# Options Available To Order

- **Keyed Alike (KA)** - A batch of cylinders all under the same one key.
- **Under Master Key (UMK)** - A batch of cylinders all under different keys with one master key which operates any of the cylinders.
- Please contact us for more information and lead times and prices for the above options.

# Unit Of Sale

- Each - (1x cylinder with 3x keys and 1x fixing screw.)
