

Lockable Cable Window Restrictors

Product Images

Description

- Cable window restrictor
- Key lockable - window can only be fully opened once unlocked via use of key.
- 200mm long cable.
- Suitable for home, public and commercial applications
- Supplied with fixings and 1 key
- Designed with health and safety in mind. This was due to a number of restrictors failing and accidents occurring, sometimes resulting in fatalities.
- Tested and conforming to BS EN 14351-1 2006 and BS EN 1670 1998 class 3
- The restrictor exceeding the demands of the 600 newtons test of the old BS 6375 part II Test 6 and passed a level of 3,000 Newtons, with all tests carried out by a credited UKAS Test Laboratory
- Available in White, Chrome, Brass Plated, and Brown Finish
