

Bottom Rolling Sliding Door Gear System For Cupboard Doors - For Doors Up To 70kg In Weight

Product Images

Kit contains:

Description

- This is a versatile twin track sliding door system for use with two or three doors and is ideal for sliding wardrobe doors.
- The system features high quality bottom mounted rollers on ball bearings with top mounted guides, each running on high quality aluminium tracks.
- Aluminium track provides a durable, long lasting finish.
- Double style track and bottom track means that positioning can be adjusted to accommodate different depths of doors.
- Bottom fixed rollers are mounted on ball bearings for extra smooth and quiet running.
- Adjustable top mounted guides make installation and removal of doors easy.
- Anti-jump system means wheels will always run smoothly.
- Additional door kit (without track) available to add extra doors to system - see product **40909**

Kits Available To Suit 2 Door Systems

2 Door System

Kits Available To Suit 3 Door Systems

3 Door System

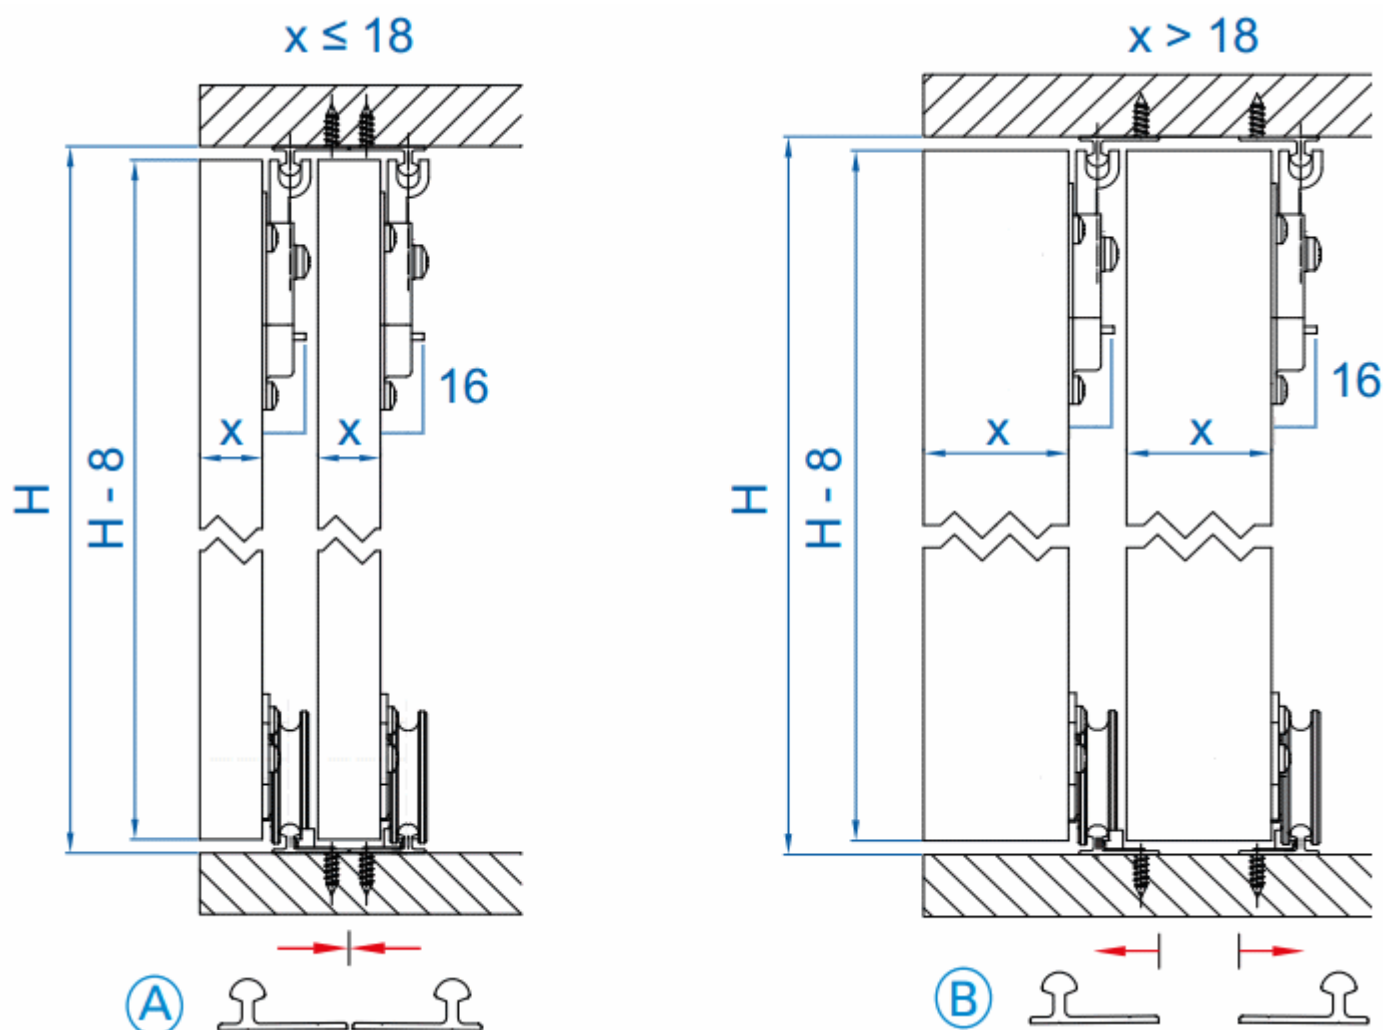

- Extra door kits (sold without tracks) are available to buy separately to create systems with more than 3 doors.
