
Dictator - Door Check And Dampener Device - Bright Zinc Plated

Product Images

Description

- The door check grabs the door as it reaches the closed position
- Damp closing prevents slamming but ensures that the door is shut firmly
- Commonly used in schools and hospitals
- Eliminates possible door slams by damping the door using hydraulic fluid
- Adjustable damper speed
- Acts on the last 10 degrees of closure
- Assures a complete closing of the door

Notes

- For use where the door shuts flush with the frame
