

Description

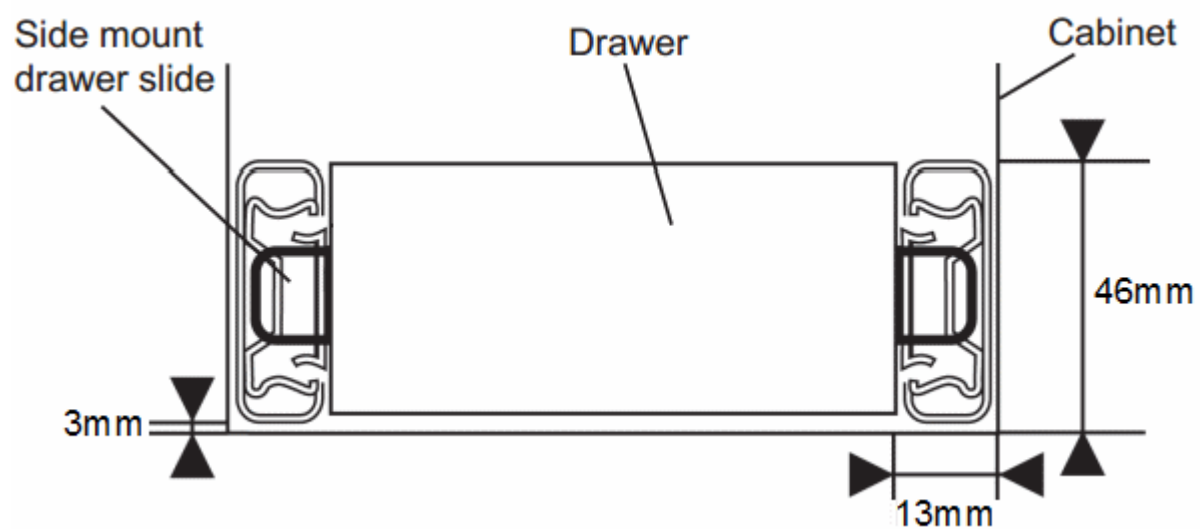

Our best-selling drawer runners. These are perfect for replacing worn-out runners on all kinds of drawers with handles. A good, reliable product at a great price.

- Ball bearing drawer runners.
- Smooth and quiet operation.
- Ideal for use with kitchen drawers, wardrobes and TV units.
- Double (full) extension design allows the drawer to be pulled fully out from the cupboard / carcass.
- 45kg weight limit.
- Front disconnect feature allows the drawer to be removed from the cabinet by simply pressing the lever built into the runners.
- Hold-in feature holds the closed drawer in place.
- Side mounted - 13mm gap required between drawer side and carcass.

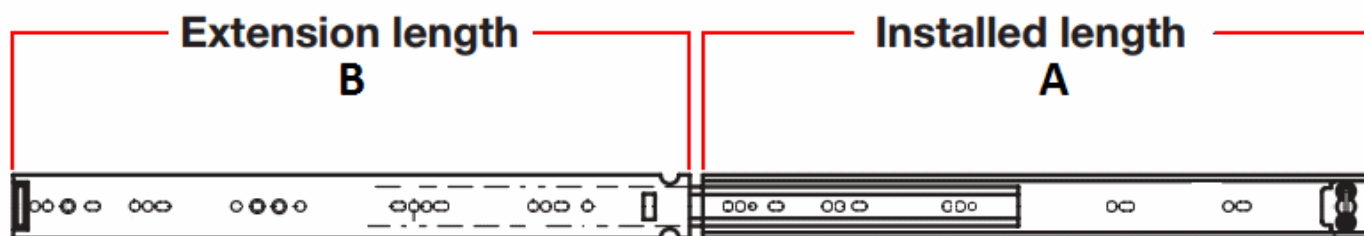

Dimensions

- Runner height - 46mm
- Runner thickness (Installation Width Required) - 13mm
