

Eclipse Sliding Pocket Door System - Single Door Kit - 100mm Finished Wall Thickness

Product Images

Description

- The Eclisse sliding door gear system is designed for use with sliding internal pocket hideaway doors weighing up to 80kg.
- Allows an interior door to slide into a "pocket" within the wall cavity.
- Each set includes all the main components needed to install a long lasting, smooth running sliding door including steel wrapped studs used to create the wall cavity or "pocket" for the door to slide into.
- This high quality sliding door gear is suitable for residential and commercial applications. The unique design allows doors between 35mm-45mm thick to be installed with a finished wall of 100 mm.
- Supplied as a kit to create the pocket, which can be fully fitted in under 60 minutes by a skilled installer.
- Suitable for use with timber doors only - **door not included**. (Eclisse kits to suit glass doors are also available).
- Unlike other pocket door systems on the market the Eclisse system **comes supplied complete with timber lining - jamb kits**.

- Ⓐ Top horizontal jambs*
- Ⓑ Vertical pocket jambs
- Ⓒ Wooden door post
- Ⓢ Brushes
- Ⓖ Rubber bumpers

*Supplied in one piece to be cut as required

Accessories Available To Suit Eclisse System

- Soft close mechanism - to dampen softly close the sliding door. - (sold separately).

- Self closing mechanism - automatically pulls the door closed each time the door had been opened. - **(sold separately)**.
- Motorised units - to automatically open the door. **(sold separately)**.
