

Eclisse Sliding Pocket Door System - Double Door Kit - 100mm Finished Wall Thickness

Product Images

Description

- The Eclisse double sliding door gear system is designed for use with sliding double internal pocket hideaway doors weighing up to 80kg.
- Allows interior double doors to slide into "pockets" within the wall cavity.
- Each set includes all the main components needed to install a long lasting, smooth running double sliding doors including steel wrapped studs used to create the wall cavity or "pocket" for the door to slide into. (Doors and plasterboard not included).
- This high quality sliding door gear is suitable for residential and commercial applications. The unique design allows doors between 35mm-45mm thick to be installed with a finished wall of 100 mm.
- Supplied as a kit to create two pockets.
- Can be fully fitted in under 60 minutes by a skilled installer.
- Suitable for use with timber doors only - **doors not included**. (Eclisse kits to suit glass doors are also available).
- Unlike other pocket door systems on the market the Eclisse system **comes supplied complete with timber lining - jamb kits**.

A Top horizontal jambs*

B Vertical pocket jambs

S Brushes

*Supplied in one piece to be cut as required
