

Eclisse Syntesis - Architrave Free Sliding Pocket Door System - Single Door Kit - 100mm Finished Wall Thickness

Product Images

P.S. The top of the door should be routed as indicated.

Description

- The Eclisse Syntesis sliding door gear system is designed for use with sliding internal pocket hideaway doors that have no architraves or door jambs.
- A single sliding pocket door system for a clean, contemporary, minimalist finish this sliding door kit is an ingenious system that allows you to eliminate the use of architraves, and jambs and just see the clean lines of the wall and door.

- The special corner profiles supplied with this system mean the edges are plastered in with the same plaster as the walls, the result being a consistent paint finish which will not age at different rates
- The Syntesis range has been designed to be the strongest of its type on the market, flex is reduced to a minimum using stronger profiles, reinforced joints and top quality materials. This is a product that will last!
- Suitable for use with doors up to 80kg
- Allows an interior door to slide into a "pocket" within the wall cavity.
- Each set includes all the main components needed to install a long lasting, smooth running sliding door including steel wrapped studs used to create the wall cavity or "pocket" for the door to slide into.
- This high quality sliding door gear is suitable for residential and commercial applications. The unique design allows doors between 35mm-44mm thick to be installed with a finished wall of 100 mm.
- Suitable for use with timber doors. **(Door not included).**
