

Eclipse Fire Rated Sliding Pocket Door System - Single Fire Door FD30 Kit - 100mm Finished Wall Thickness - Supplied With White Intumescent Seals

Product Images

Short Description

Please note as of June 2023 the Eclisse fire door kit is **ONLY** certified for use with particular fire doors.

Please see the below link for doors which meet the fire test requirements.

[FD30 Fire Doors Tested For Use With The Eclisse Fire Door Kit](#)

Please note doors are **NOT** included with this kit.

Description

- Eclisse sliding pocket door gear system for use with FD30 rated fire doors. Fully tested and approved to BS EN 1634-12008 by Cambridge Fire Research, UKAS approved testing authority.
- Suitable for use with 30 minute (half hour) fire doors only.
- Allows an interior door to slide into a "pocket" within the wall cavity.
- Each set includes all the main components needed to install a long lasting, smooth running sliding fire door including steel wrapped studs used to create the wall cavity or "pocket" for the door to slide into.
- This high quality sliding door gear is suitable for residential and commercial applications. The unique design allows doors between 35mm-45mm thick to be installed with a finished wall of 100 mm.
- Supplied as a kit to create the pocket, which can be fully fitted in under 60 minutes by a skilled installer.
- Suitable for use with timber fire rated doors only - **please note doors are supplied with white intumescent seals**
- Unlike other pocket door systems on the market the Eclisse fire rated system **comes supplied complete with** timber jambs and architraves.
- **Doors not included.**

Accessories Available To Suit Eclipse System

- Anti-Slam / Soft close mechanism - to dampen softly close the sliding door - 43129.1 - (sold separately).
