Product Images

Description

- Codelock CL155 mechanical digital combination lock.
- Light duty tubular mortice latch retracts by turning inside lever freely, or the outside knob after code input.
- Supplied with a hold open function enabled allowing free entry when required, without having to use a code. The function can be disabled during installation requiring code input to open the door.
- Suitable for internal and external use
- Dual backplate allows option of hold/non-hold open

- Tumbler alignment for easy code change
- Suitable for low traffic applications
- Available in silver grey or polished brass finish
- Neoprene seals included

- Height 141mm
- Width 41mm
- Latch Backset 60mm

- Outside Entry via code
- Inside Exit via thumbturn

- **Suitable use on 30 or 60 minute fire doors. Tested in accordance with BS EN 1634-1:2008.**
- **If this lock is being installed on to a fire door the intumescent fire kit pack must be fitted to the mortice latch. See related product 44487.**
