
Accessible Toilet Lock & Handle Set For Disabled WC Toilets - Polished Brass (Lacquered)

Product Images

Description

This toilet lock is designed especially to comply with new legislation Part M, DDA & BS8300 etc.

The accessible toilet lock operates from the outside with a lever handle to release the roller latch bolt & has a red & white indicator release, in an emergency the coin release can be turned to release the dead bolt. The outside operation is no different to any other bathroom lock & does not require instructions.

The inside lever handle presses down to release the latch bolt & lifts up to throw the dead bolt as illustrated this is an unusual feature & therefore has a sign to read "lift handle to lock" this message is repeated in Braille.

The unique toilet lock comes in a complete set as shown in the photographs.

Handled made from solid brass.

Finish Polished brass (shiny finish)

Lock Case Polished brass forend & strike plate. Roller bolt latch (less likely to cause injuries or damage to clothing than a normal latch bolt).

Separate deadbolt with 78mm centres and 57mm backset

Furniture 19mm diameter brass levers

Fixings Bolt through Secure Fixings

Lettering Black letters on white background & Braille to read "lift handle to lock"
