

## Zenith - Double Track Sliding Door Gear For 6mm Glass Doors - Max Door Width 900mm - Max Door Weight 25kg

### Product Images

### Description

- The Zenith is a sliding door kit suitable for use on cabinets with glass doors including showcase cabinets, bookcases, display panels, hatches or interior sliding windows.
- Precision-made, satin anodised aluminium (SAA) door gear and glass carriers.
- Brush-pile strips fitted inside the top guide rail ensure a silent and easy-gliding action.
- Supports a maximum glass door weight of 25kg and a maximum glass thickness of 6mm.
- Three kits are available giving a maximum opening width of 1800mm.
- Design for a simple top fixing into a piece of furniture or opening.
- Bottom rolling kit with top aluminium guide track.

- Supplied with bottom rollers and SAA Aluminium finish glass carrier rail.

## Kit Suits 2 Door Systems

### 2 Door System
