
Brackets For Attaching Custom Made Wooden & MDF Pelmets To Sliding Door Tracks

Product Images

Description

- Brackets for attaching custom made wooden and MDF pelmets to sliding door gear tracks.
- Suitable for use with the **'60kg - 31268' / '120kg - 31269' / 'Glass - 31278' Sliding Door Gear**
- The mounting brackets allow you to attach an easily removable custom made wooden pelmet to hide the sliding door gear track and hangers.
- Pelmets are often made from the same material as nearby skirting board and architraves or can be made to match the door itself.
- Double sided brackets can be used for doors between 16mm and 45mm in thickness.
- Pelmet brackets simply screw into the back of your custom made pelmet and then clip into the channels built into the track.
- Supplied as a pack of 3 brackets
- **Suitable for use with '60kg - 31268' / '120kg - 31269' / 'Glass - 31278' sliding door systems only.**
